For general referrals we encourage you to call our Physician Referral Line at (866) 326-6915 and speak to one of our Oncology Information Specialists (OIS). They will gladly help you with the referral process. If you would like to have a specialist contact you prior to your patient’s appointment, please let OIS know.

EMERGENCY REFERRALS (574) 364-2141
For urgent consultations, call the Goshen Health Hospital page operator at (574) 364-2141 and ask to speak to the on-call medical oncologist.

PATIENT CONTACT
Once we receive your referral call and OIS has obtained the patient’s information, we will contact your patient to schedule an appointment. Our care team will provide emergency access to patients with advanced or urgent medical conditions. We will schedule all others as quickly as possible through our appointment scheduling system.

TIMELY FEEDBACK
We want you to be well informed about your patient’s condition while they are in our care so we will provide you with regular progress reports. In addition, you are always welcome to contact us via our Physician Referral Line should you have any questions.
OUR SERVICES

At Goshen Center for Cancer Care, we treat nearly every type of adult cancer with a full range of medical therapy including surgical oncology, medical oncology and radiation oncology. Some of the most advanced technology, such as TomoTherapy and PET/CT, is administered by our specialists who have decades of experience. We also have a 12-bed infusion unit for chemotherapy and blood products, state-of-the-art radiation equipment and access to inpatient and outpatient surgical suites. A wide range of support services including naturopathic medicine, nutritional recommendations and mind-body counseling are also available to our patients.

Our research department is committed to providing access to the newest experimental drugs and treatment. Please call the PHYSICIAN REFERRAL LINE AT (866) 326-6915 or go to GoshenCancer.org to see if your patient is eligible to participate in one of our many clinical trials.

We are located on the campus of Goshen Health Hospital, a full-service, acute-care facility. Imaging and interventional radiology services including x-ray, PET, MRI, ultrasound and image-directed biopsies are conveniently located on-site, as are laboratory and pathology services. Outpatient physical and occupational therapy are also located on our campus, should a referral be desired.

If a patient’s treatment requires them to be here overnight, they may choose to stay in our CARE House. It provides a comfortable, home-away-from-home environment with four suites, each with a private bathroom, along with a common living room, dining room and kitchen.

OUR APPROACH

Our approach is what sets us apart from other cancer centers. While providing some of the most advanced treatment options for healing, we focus not just on the disease but on the whole patient.

Our integrated model enables us to create a multidisciplinary care team of oncologists and clinical support staff for each patient. Conferences are held for each case so that our team can explore every treatment possibility available, and complementary medicine programs consisting of naturopathic care, dieticians and counselors.

Since our entire care team works together right here, under one roof, your patient’s integrated treatment plan can be implemented quickly and seamlessly.

Our integrated model of care is the foundation for everything we do. It has earned us recognition as one of the nation’s leading cancer centers from the American College of Surgeons. We also received the HOPE Award for Integrated Care from the editors of Hematology & Oncology News.

At Goshen Health, we hold ourselves to higher standards so that each patient receives the most complete physical, emotional and spiritual care possible.
